

Kronos Workforce Dimensions Implementation

Challenge:

This national paper products manufacturer was seeking a Kronos Dimensions Partner to help provide client-side support and guidance throughout its implementation of Kronos Workforce Dimensions.

As a known and trusted workforce management advisor and Kronos Dimensions Partner, Workforce Insight was engaged for this project, appointing a team of Kronos experts and experienced workforce management consultants to support the client's Dimensions initiative.

KRONOS WORKFORCE DIMENSIONS IMPLEMENTATION & DEPLOYMENT SUPPORT

Workforce Insight provided functional Workforce Dimensions implementation services, testing, and testing support, including working with HR and client subject matter experts at each location to create test scripts; implementation-related activities support, including deployment support and documentation; and project administration, working with the client's executive committee, project manager, and project team to assess and formulate the optimal project process and weekly status report documentation

TRAINING SERVICES

Workforce Insight's team of Kronos training specialists provided comprehensive Workforce Dimensions training services and support, including Timekeeping & Scheduling reference guides and training manuals, interactive web-based tutorials, and train-the-trainer workshop delivery to prepare client to deliver end-user training on the Kronos Dimensions solution
