

Kronos Workforce Dimensions Implementation

Challenge:

In making the move to Kronos Workforce Dimensions, this large international consumer goods manufacturer recognized the need for a trusted advisor and client advocate to help the company successfully navigate the transition and guide them throughout their implementation of the full Workforce Dimensions suite.

Due to Workforce Insight's reputation for being recognized as a valued, longstanding Kronos partner with a distinguished track record of successful projects and leadership in guiding clients throughout their Kronos Dimensions implementations, Workforce Insight was engaged by the customer to support its Dimensions initiative.

KRONOS ADVISORY SERVICES

Workforce Insight leveraged extensive Kronos knowledge to provide Kronos insight and advisory services to the client project team, as well as Kronos subject matter expertise to help empower client to make implementation and configuration decisions best suited to meet the company's needs and requirements.

Workforce Insight also provided optimal recommendations and insight on Kronos system-related solutions and best practices that will help meet the client's project objectives, working across locations to assess current and future needs and advise each on solution options moving forward.

KRONOS WORKFORCE DIMENSIONS CLIENT-SIDE PROJECT MANAGEMENT SUPPORT

Workforce Insight provided client-side project management support to help ensure necessary project oversight, manage client-side resources, applicable status meetings, and project communications, and lead skills and knowledge transfer to client team
